Biggest and Best Value
BRAHMAN BULL SALE

191 studs selling the best of their bulls

Scrotal circumference and semen quality requirements above Cattle Vets standards
Highest requirement any sale any breed
All bulls ACV breeding soundness evaluated
Breed leading studs
Breed leading bloodlines

Freight Rebates

To buyers purchasing 5 Bulls or more

Travelling over 500kms: $50*/Bull
Travelling to outside of Queensland: $100*/Bull
Bulk buyers purchasing 10 bulls or more will be eligible for $50.00 per bull* No distance requirements

Outside Agents Rebate

Agents based within
100km from Rockhampton - 2%*

Agents based more than
100km from Rockhampton - 4%*

**Excludes GST. Conditions apply, see page 25 for details.*

Under the following conditions:

- A buyers bonus to independent agents who introduce buyers in writing by email to abba@brahman.com.au by 4pm of Friday 3rd of October.
- Accompany clients to the sale or buy on their behalf.
- Agent to be nominated on Buyers Instruction Sheet to accept Invoice.
- Settle account on behalf of clients within 7 days of receipt of invoice.
- ABBA stud members and junior members are to be excluded from outside agent rebates.

ROCKHAMPTON BRAHMAN WEEK

Sale Programme

2025

SUNDAY, 5TH OCTOBER

5.00pm.....Vytelle RBWS Gathering complimentary BBQ Steak Buffet at CQLX

MONDAY, 6TH OCTOBER

6.00am.....All Monday bulls penned for inspection
8.30am.....Selling Commences
3.00pm - 6.00pm Drinks

TUESDAY, 7TH OCTOBER

6.00am.....All Tuesday bulls penned for inspection
8.30am.....Selling commences
3.00pm - 6.00pm Drinks

WEDNESDAY, 8TH OCTOBER

6.00am.....All Wednesday bulls penned for inspection
8.30am.....Selling commences
3.00pm - 6.00pm Drinks

Special INVITATION

Vytelle

RBWS GATHERING

You are invited to attend the Complimentary BBQ Buffet and Refreshments at CQLX Gracemere.

SUNDAY, 5TH OCTOBER
COMMENCING 5PM

THE AUSTRALIAN BRAHMAN BREEDERS ASSOCIATION BOARD LOOK FORWARD TO SEEING YOU THERE.

NOTICE TO BUYERS

POST SALE FEEDING OF CATTLE AT THE GRACEMERE SALEYARDS

Vendors and purchasers please note:

All bulls left over night post sale will only be fed by the sale yard feeding contractor if the feed sheet in the buyers lounge is completed

THE FEED SHEET MUST BE COMPLETED FOR EACH DAY OF THE SALE

MOUTHING OF BULLS

The Dentition reported in the supplementary is relevant to the date of inspection which may be performed up to 6 weeks before the sale.

There is evidence that the time taken from emergence to fully erupted of a pair of permanent teeth can be as little as 2 weeks, therefore an additional set of teeth may have appeared within the allowable inspection window.

Even the most resilient people need support: Zoetis and Beyond Blue support the mental health of Australia's local communities.

Considering the vastness of Australia and the number of people who live in regional and rural areas, it's a concerning fact that remoteness is a major risk factor contributing to mental health issues and suicide, with the suicide rates being 60% higher than rates in major cities. In addition, people in outer regional, remote or very remote areas of Australia face more barriers to accessing health care than people living in major cities, making it harder for them to maintain good mental health.

The farming community has endured many challenges over the years. Through droughts, floods, bushfires and the on-going Covid-19 related issues, rural Australia and country people are stoic and display considerable courage, however the impact on mental health has been significant for many.

With many farmers, small business owners, workers and parents feeling the pressure it is vital that people receive mental health support as early as possible to prevent their issues leading to more serious mental health conditions. Financial hardship, isolation and stigma can take a toll on those in distress, placing their mental health at risk. It's important to remember that depression and anxiety are common conditions, not weaknesses, and with the right treatment, most people can recover.

The good news is that most of us will be able to cope very well with challenges as they arise - we will use our normal resources, our strengths, networks and the support that we have around us from family, friends and loved ones. People in rural Australia are known for their resilience in times of crisis, but even the most resilient among us need extra support at times. We want everyone to know that support is available and encourage people to seek advice. Asking for support is a sign of strength – not weakness.

The beyondblue website is www.beyondblue.org.au .

The GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the Australian Brahman Breeders Association nor the ABRI oversee or audit the collection of this data.

EXPLANATORY NOTES FOR CATALOGUES

Only GROUP BREEDPLAN EBVs with Accuracy (Acc) can be validly compared between Brahman herds

ESTIMATED BREEDING VALUES (EBVS)

An animal's breeding value is its genetic merit, half of which will be passed on to its progeny. While we will never know the exact breeding value, for performance traits it is possible to make good estimates. These are called Estimated Breeding Values (EBVs). They are expressed as the difference between an individual animal's genetics and the genetic base to which the animal is compared.

ACCURACY

An accuracy value is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or it's relatives. The following guide is given for interpreting accuracy:

ACCURACY RANGE INTERPRETATION

Less than 50% - EBVs are preliminary and could change substantially as more performance information becomes available.

50 - 74% - medium accuracy, usually based on the animal's own records and pedigree.

75 - 90% - medium-high accuracy. Some progeny information included. It is unlikely that EBVs will change much with addition of more progeny data.

More than 90% - high accuracy estimate of the animal's true breeding value.

As a rule, animals should be compared on EBVs regardless of accuracy. However, where two animals have similar EBVs the one with higher accuracy could be the safer choice, assuming other factors are equal.

TRAITS

Birth

Gestation Length (days): Bulls with lower (or more negative) GL EBVs are expected to produce progeny with shorter gestation lengths. Such progeny are also expected to be easier calving.

BWT: Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for damage. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

Fertility

SS: Scrotal Size EBV (cm) is calculated from the scrotal circumference measurements of males taken between 300 and 700 days of age. Values are adjusted to 400 days of age. This EBV is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate larger scrotal size. There is also a small negative correlation with age of puberty in female progeny and therefore selection for increased scrotal size will result in reduced age at calving of female progeny.

DC: Days to Calving EBV (days) is an indicator of female fertility based on the time between a cow's first exposure to a bull and when she subsequently calved. Cows that calve late in the season or fail to calve are penalised. Lower (negative) EBVs are preferred indicating shorter days to calving for the sire's daughters.

Percent Normal Sperm (%): Bulls with higher (or more positive) PNS EBVs are expected to produce progeny that are more fertile.

Growth

Milk: 200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200-day weights of their calves.

200: 200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400: 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600: 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

MCW: Mature Cow Weight EBV (kg) is an estimate of the genetic difference in cow weight at 5 years of age. Moderate EBVs are generally more favourable.

Milk (kg): Bulls with higher (or more positive) Milk EBVs are expected to produce daughters with more maternal ability leading to higher 200 day weights in their progeny. Selection for moderate Milk EBVs may be preferable in harsher environments as cows with higher Milk EBVs can have impaired fertility and decreased survival under such conditions.

Carcase

CWT: Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days.

EMA: Eye Muscle Area EBV (cm2) estimates genetic differences in eye muscle area at the 12/13th rib site of a 300kg dressed carcase. More positive EBVs indicate larger eye muscle area and therefore higher retail beef yields.

RIB: Rib Fat EBV (mm) estimates the genetic differences in fat depth at the 12/13th rib in a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

RUMP: Rump Fat EBV (mm) estimates the genetic differences in fat depth at the P8 site of a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

RBY%: Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcase. A more positive EBV indicates higher percentage yield for the 300kg carcase weight.

Intramuscular Fat (%): Bulls with higher (or more positive) IMF EBVs are expected to produce progeny with more marbling and better grading scores (e.g. MSA).

Flight Time (secs): Bulls with higher (or more positive) FT EBVs are expected to produce more progeny with acceptable temperament.

Shear Force (kg): Bulls with lower (or more negative) SF EBVs are expected to produce progeny with more tender meat.

EXPLANATORY NOTES FOR CATALOGUES CONTINUED

Only GROUP BREEDPLAN EBVs with Accuracy (Acc) can be validly compared between Brahman herds

Selection Index

Each selection index describes a different production system/market scenario and relates to a typical commercial herd using Brahman bulls. All selection indexes are reported in units of net profitability per cow mated ($) for the production system/market scenario they describe.

Central Production Index (CPI)

- Self-replacing commercial herd targeting pasture finished steers (e.g. central Queensland).
- Selected heifers are retained for breeding so maternal traits are important.
- Steers target 580 kg live weight (315 kg HSCW & 10 mm P8 fat depth) at 27 months of age, while surplus heifers target 470 kg live weight (250 kg HSCW & 12 mm P8 fat depth) at 25 months

Live Export Index (LIVE)

- Self-replacing commercial herd targeting the live export markets.
- This selection index is designed for cattle run in extensive northern Australian environments.
- Selected heifers are retained for breeding so maternal traits are important.
- Steers target an export live weight of 300 kg.

When reporting polled test results from a SNP based test, the results will be reported as seen below:

RESULTS	INTERPRETATION	ANIMAL'S APPEARANCE
PcPc	Homozygous Poll (PP)	Predominately Polled (occasional scurs)
PcPf		
PfPf		
HPc	Heterozygous Poll (PH)	Polled or Scurred
HPf		
HH	Horned (HH)	Horned

Understanding BREEDPLAN Percentile Graphs

BREEDPLAN Percentile Graphs are designed to make it easier to compare an animal's EBVs with the current breed benchmark. Instead of just looking at raw EBV values, these graphs show where an animal sits in the breed population for each trait.

- **The Shaded Bar:** Each horizontal bar represents the full range of EBVs recorded for that trait in the breed. The bar is shaded either to the left (lower values) or to the right (higher values) from the 50th percentile mark. The end of the bar shows the EBV of the animal you are assessing. The position of the bar tells you how that EBV ranks compared with other animals in the breed.
- **Percentiles:** The scale below the bar shows percentile bands (Top 10%, 20% 30% down to 100%.). The bar ending further to the right means the animal ranks higher for that trait within the breed.

For example:

- If the bar for 400 Day Weight ends on the 10% line, that animal is among the heaviest 10% of the breed at 400 days.
- If the bar for Birth Weight is in the Top 30%, that animal has a lower birth weight than 70% of the breed, which may be desirable for calving ease.

Key Points to Remember:

- Not every trait should be selected for maximum values. For example, you may want moderate birth weight but high growth and fertility.
- Always consider EBVs in relation to your own breeding objectives.
- Use percentile graphs alongside raw data, visual appraisal, and structural assessment to make balanced selection decisions.

LIVE	+$76	-	9	Lower	Higher

Understanding Median vs Average

It is important to know that the Brahman breed average and the percentile graphs ranking are different. Unlike the breed average, the percentile graphs are the median of the breed rather than the average.

It is useful to understand the difference between average (mean) and median.

- **Average (Mean)**: This is calculated by adding up all the numbers in a group and dividing by how many there are. It provides an overall picture but can be skewed higher or lower by a few extreme results.
- **Median**: This is the middle value when all numbers are lined up from smallest to largest. The median shows the "typical" result and is less affected by extreme highs or lows.

For example, if most bulls in a group are priced around $10,000, but one sells for $50,000, the average will rise sharply, while the median will still reflect the more common price point.

The association takes no responsibility for accuracy of notes provided by vendors in catalogue

STUD STOCK
AUCTION TERMS AND CONDITIONS OF SALE

IMPORTANT NOTICE: All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.

1. The highest bidder shall, subject to Condition 2, be the Purchaser provided that the Vendor reserves the right to bid either by himself or through his Agent or Auctioneer and should any dispute arise among the bidders for any lot, during or immediately after the sale of the lot, it shall be settled at the Auctioneers absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the Auctioneer and no bid shall be retracted.

2. The sale will be conducted on a "Sale" or "No Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the Vendor who will immediately after the fall of the hammer declare "Sale" or "No Sale". Should the Vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the Vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.

3. The details of the Purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the Auctioneer shall be equally binding on both Purchaser and Vendor.

4. The Auctioneer expressly reserves the right, without giving any reasons therefore, to:—

   (a) Refuse to acknowledge any bid;

   (b) Withdraw any lot or lots before or during the sale;

   (c) Exclude any person from the auction venue should it think fit.

5. Each lot in all cases shall be at the risk and expense of the Purchaser upon acceptance of his bid by the Vendor or upon acceptance of the highest bidder's offer by the Vendor whichever shall be the earlier.

6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the Vendor or by the Auctioneer acting as agent for the Vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee, warranty or condition whatsoever was given or implied.

7. In the event of any dispute in respect to the sale of any lot:

   (i) The Purchaser shall nevertheless be obliged to pay to the Auctioneer the full purchase price and any other monies or interest payable by the Purchaser in accordance with these terms and conditions;

   (ii) The Vendor and the Purchaser shall resolve the dispute between themselves;

   (iii) The Auctioneer shall have no liability or responsibility in regard to the dispute; and

   (iv) No lot shall be returned to the Auctioneer and the Purchaser shall indemnify the Auctioneer for all costs, expenses and damages which the Auctioneer is put to or incurs by reason of the Purchaser so doing.

8. The name of the Vendor for whom the Auctioneer acts is acknowledged to have been furnished to Purchasers prior to the sale and further particulars will in all cases be furnished to a Purchaser if required. In the case of any disputes the remedy of the Purchaser shall be against the Vendor only and in no case or under any circumstances against the Auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.

9.(a) PAYMENT — Unless prior credit arrangements have been made in writing with the Auctioneer the full purchase price for each lot shall be due and payable to the Auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the Vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the Purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the Purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the Auctioneer reserves the right to:—

   (i) Rescind the contract on behalf of the Vendor and repossess and resell any lot;

   (ii) Recover from the Purchaser interest upon the purchase price at a rate per annum which aggregates the AMBA Bill Rate plus two percentum. For the purposes of this condition, the expression "the AMBA Bill Rate" is the rate published by the Australian Merchant Bankers Association in good faith as at the date of the sale as its bill rate for 180 day bills of exchange expressed as a percentage per annum. If at any time the AMBA Bill Rate becomes unavailable for any reason, the Auctioneer shall determine and advise the Purchaser of the interest rate to apply for the purposes of this condition.

9.(b) The Auctioneer is selling as the del credere agent of the Vendor and the full purchase price of any lot sold shall be payable by the Purchaser to the Auctioneer and be fully recoverable by the Auctioneer in its own name.

10. If the Purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with

or without notice, at the risk of the former Purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.

11. Any Vendor or Purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.

12. The Purchasers, if any more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.

13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the Vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the Vendor or Auctioneer, provided however, that this Condition shall not in any way negate the Vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.

14. The Auctioneer may, should it think fit, make arrangements on a Purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the Auctioneer and all such service will be at the Purchaser's risk and expense.

15. No lot will be delivered until the sales invoice has been checked and signed by the Purchaser or his duly authorised representative.

16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement of warranty, statutory or otherwise, is hereby excluded. The Auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the description of pedigrees of any lot offered for sale and no such error, misdescription of omission shall entitle the Purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.

(b) Each lot will be sold subject to passing all veterinary tests required by the law of the state or country to which the Purchaser intends to transport that particular lot, such tests to be undertaken at the Purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the Purchaser shall be refunded and property in the lot shall revert to or remain with the Vendor.

17. Guarantees of Fertility:—

(1) BULLS - Save and except for calves at foot, all bulls are guaranteed breeders and to so prove by the later of:

(a) six months after the date of sale or

(b) the animal reaching the age of 24 months

(2) FEMALES - Save and except for female calves at foot, all females are guaranteed to be in calf or go into calf by the later of:

(a) 6 months of the date of sale

(b) the animal reaching the age of 30 months

A positive pregnancy test certified by a qualified veterinary surgeon shall be sufficient evidence that the animal is in calf.

(3) Claims under Clauses 17(1) and 17(2). A claim that an animal has failed to satisfy a guarantee of fertility under Clause 17(1) or 17(2) must be made to the Vendor within the relevant guarantee period but prior to the animal entering a quarantine area other than on the Vendor's property.

(a) All claims must be accompanied by a certificate from a registered veterinarian surgeon in accordance with the guidelines established by the Australian Association of Cattle Veterinarians which must clearly identify the basis of the claim.

(b) Subject to Clause 17(9), infertility resulting from injury or disease occurring after the sale of the animal is not covered by this guarantee.

(c) The Vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. If the animal proves fertile within the period such status must be confirmed by a certificate issued by a registered veterinary surgeon in accordance with the guideline established by the Australian Association of Cattle Veterinary and costs incurred must be borne by the Purchaser. If the animal not proven fertile within the period, the costs incurred must be borne by the Vendor.

(4) LIABILITY OF A VENDOR - Except for costs defined elsewhere in the conditions of sale, the liability of a Vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or provide mutually agreed upon replacement animal(s).

(5) In the event of a claim being substantiated:

(a) The purchase price shall be refunded within 14 days unless a mutually agreed upon replacement animal has been provided.

(b) The animal/s which are the subject of the claim and any stocks of stored semen shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.

(6) Subject to Clause 17(9), this guarantee is of no effect if:

(a) The animal is returned to the Vendor.

(i) In poor physical condition or with any injury;

(ii) Tests carried out on behalf of the Vendor within fourteen days of such return proved positive to any diseases which may affect the animal's fertility or ability to breed naturally; or

(b) The Purchaser has collected and stored semen from a bull. The Purchaser has collected and stored oocytes and embryos from a female.

(7) In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the Vendor and the Purchaser and the Auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. If an animal is alleged or proved not to be a breeder, the Purchaser must nevertheless pay the Auctioneer the full purchase price and any other monies or interest payable by the Purchaser in accordance with these Terms and Conditions.

(8) EVIDENCE OF FERTILITY — A Certificate issued by a registered veterinary surgeon at or before the time of sale than an animal is fertile (unless it is a certificate stating in respect of a female that she is in calf at the time of sale) does not, of itself, satisfy or discharge the Vendor's obligations under the guarantee of fertility given under this Clause 17. All animals, except calves at foot, must prove their fertility within the relevant guarantee period.

(9) RELIEF FROM GUARANTEE — If the Vendor seeks to be relieved from the obligations which would otherwise be imposed upon him by this clause by virtue of Clauses 17(3)(b) or 17(6)(a), the onus of proof is upon the Vendor to establish that:

(a) The animal suffered the injury or disease or is in poor physical condition due to circumstances and events occurring after the sale, and

(b) The injury, disease of physical condition is the sole cause of the animal's infertility or failure to prove fertility within the guarantee period.

(10) DEFINITION — For the purpose of this Clause 17, the expression "guarantee period" means:

(a) in relation to bulls — the period specified in Clause 17(1) as being the period in which the bull must prove his fertility;

and

(b) in relation to females — the period specified in Clause 17(2) as being the period in which the female must go into calf.

18. (a) Each lot shall be at the risk of the Vendor in respect of any damage or injury, whether by disease, accident or otherwise, or whether caused by the negligence of the Auctioneer for the period that the lot be in the custody of the Auctioneer, unless such lots shall have been sold in which latter case such lot shall be at the risk of the Purchaser in all such respects.

18 (b) If any Vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that Vendor shall be liable for all injury, damages, costs, losses or expenses which the Auctioneer may sustain, incur or be put to either directly or indirectly as a result of the Vendor so doing. The Auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.

19. DELIVERY — Except at the discretion of the Auctioneer no lot shall be delivered to the Purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the Auctioneer pursuant to Condition 14 hereof, is first made by the Purchaser to the Auctioneer. Release of lots may be withheld by the Auctioneer until personal cheques are cleared.

20. In these Conditions:—

(a) References to "Auctioneer" shall be taken to mean as the context so admits, the Selling Agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the Vendor to conduct the sale of the lot;

(b) "Purchaser" shall have the meaning ascribed to it in Condition 1;

(c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;

(d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the Auctioneer on behalf of a Vendor.

IMPORTANT NOTICE

The descriptions of the animals in this catalogue and associated information, including their pedigree and other genetic information, has not been verified by the Vendors or the Selling Agents. Whilst all care is applied in recording pedigree information and producing this catalogue, industry experience suggests that the pedigrees of some entries may have errors. Consequently, the Vendors and the Selling Agents and their representative(s) do not assume any responsibility for the use or interpretation of the information on animals included in this sale catalogue and associated information.

All persons who attend the Sale do so entirely at their risk and the Vendors, Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

The price at the fall of the hammer is exclusive of GST. GST will be applied to the final hammer price at the time of invoicing.

WA buyers, as per government regulations, are required to test for Liver Fluke. Further details https://www.agric.wa.gov.au/livestock-biosecurity/liver-fluke-testing-and-laboratory-requirements-western-australia

CENTRAL QUEENSLAND

Vytelle

“Vytelle is shaping the future of modern reproduction in Australia with reliable, predictable results—delivering 55–60% success with fresh embryo programs and 45–50% with frozen embryos. Our frozen direct transfer embryos make IVF more accessible than ever, driving genetic progress for producers who never thought such results were possible.”

ANDREW DONOGHUE,
REGIONAL DIRECTOR, AU

TRALIN SENSATION (ET) (PS)

ELANORA PARK ELAMO (PS)
D. ORANA COTTON 2139 (PS) AAC2139F
ORANA SUEDE 2062 (H)

NOTES: We understand this young PP sire might not be everyone's cup of tea, but we truly believe his potential is enormous. He's far from finished growing, and we're confident he'll develop into an impressive sire. With unique, diverse breeding and a temperament that's beyond bombproof, he ticks a lot of boxes for us. His brother will be joining our 2026 show team - and we can't wait to see what the future holds for both of them.

NOTES: Proof of the staying power of great sires is evident in this bull. A polled sire in the making, this Stratton son is from our leading cow line that continues to breed exceptional quality progeny again and again. Length, depth and strength combined with a gentle temperament makes a great combination.

NOTES: These genetics DO NOT fail. They just keep working. Another great young sire from our top donor cow line, proving her ability to consistently breed great progeny no matter the sire including her $55,000 son from RBWS 2022. A moderately framed bull with a great polled head, thick bodied, great spring of rib and plenty of carcase. Don't overlook him!

SOMERVIEW BART 2610 (PS)
D. PALMVALE MISS CHERRY 3893 (PS) KJS3893F
PALMVALE MISS CHERRY 3434 (H)

NOTES: Titanium is an upstanding, polled sire prospect, with a ton of breed character, plenty of bone, length and an excellent temperament. His sire, Palmal Democrat, has been a game changer in our cow herd at Palmvale, breeding plenty of softness, loose skin and bone into his progeny. His dam is a young, light red, polled cow with a beautiful udder.

NOTES: Glengarry King Pin 3496 is an impressive son of the $110,000 sire PBF Aviator, combining power, length and natural muscling with an easy-doing constitution. He stands on a strong, sound structure with depth of body and a clean underline. His dam comes from the foundation family line Glengarry Belle 184, which delivered Glengarry's first tri-colour ribbon and continues to produce consistent, high quality progeny. King Pin 3496 offers an excellent balance of performance and pedigree, delivering elite sire potential with proven show-winning maternal genetics.

NOTES: Cornerstone 3534 is an eye-catching sire prospect with style and presence. He is sired by Ahern Clancy, bringing proven performance and strength to his pedigree. This bull displays a distinctive speckled neck, adding to his unique look and breed character. He stands out with a broad muzzle, strong head carriage, tidy underline, long deep body, and a square, well-muscled hindquarter. His dam is a PBF McManus granddaughter, one of the powerful and reliable producers of the PBF brand. Corner Stone blends pedigree depth, unique style, and structural soundness, making him an excellent choice for stud or herd improvement.

NOTES: Union Jack 174 leads the Glengarry S draft with exceptional sire appeal and breed character. Sired by Elrose Just Right, he carries the structural soundness, depth and style that have made this line so consistent. Union Jack displays an impressive combination of length, capacity, and tropical skin, finished with a strong head and a powerful stance. His pedigree, outlook and balance make him an ideal choice for breeders seeking a versatile bull with the proven genetics to enhance any herd.

NOTES: Always a standout calf. Fisher is the first of our polled bulls at only 21 months. He is a high-quality bull showing good bone, growth, volume and sirey head. Very quiet and beautifully bred. Sire potential here. Selling 3/4 share and full possession. Only keeping small amount of semen for in-herd use only.

Tissue Sampling Unit (TSU)

Allflex® Tissue Sampling Units provide a simple but effective means for DNA testing livestock. Collect a clean, uncontaminated sample in seconds with a single squeeze motion, TSU's are easy to use and yield excellent lab results.

TSU's can be paired with a matching NLIS and visual management tag, creating a simple link between the genetics of an animal and it's Identification.

For more information, visit **allflex.com.au**

NCC SONJA 1918 (H)

NOTES: About to turn 23 months, Gates is a young PS sire prospect that should be on the radar of Studmasters to inspect. He has an excellent strong head, has heavy bone, good length and is attractive in his breed character and quality. Well developed for his age and you can see that he will go on and reinforce all his outstanding breed qualities and beef industry credentials towards full maturity. Low Birth Weight EBV is a bonus.

NOTES: Offered is a share and full possession, with no further call. Southern Cross is a maternal half-brother to RBWS's top-priced bull True North. His dam, a full sister to Topshelf, is currently PTIC with her fourth natural calf and 3 calves at 399 DCI. This bull combines a quiet, easy-going temperament with exceptional growth - he is (PP) and ranks in the top 5% for 200, 400, and 600-day weight performance.

NOTES: Matlock is a deep red, super quiet, clean-underlined, PP sire by the proven Magnar bull. He's out of a tidy cow in 3756 with a beautiful udder-currently PTIC with her 5th calf, averaging a 416 DCI across 4 calves. Matlock offers above-average growth and a calm nature, making him an easy addition to any herd.

NOTES: Magistrate is a PP cherry red sire with outstanding growth, ranking in the top 5% for 200-, 400-, and 600-day weights. He's out of our proven donor 2805, who has produced sons selling to $30,000 and $25,000. This mating to Magnar has clicked once again. 2805 is also the grand dam of Merlwood, the next bull in the lineup-testament to the strength of this cow family.

NOTES: Crusader is a standout young sire prospect, bred deep in the purple. Homozygous polled (PP) with a striking cherry red coat, he blends pedigree power with structural excellence. The first of three impressive sons by the elite Y3K Galaxy the $100,000 sale topper at the 2021 RBWS. Crusader carries the genetics of champions. His dam, Red Opal 477, is a matron of distinction, with four sons in this draft. She is the dam of Red Opal 611 ($47,500). Crusader features a broad topline, strong square stance, and an exceptional hindquarter. His clean sheath, sound testicles, excellent feet and legs reflect both fertility and structural soundness. He has a bombproof temperament. Crusader is undeniably a sire in the making. Selling 3/4 share and full possession.

NOTES: Cosmo is a full brother to Lot 533, Crusader. True to his lineage, he offers the same elite combination of pedigree, structure, and temperament. Homozygous polled (PP) and a good red, he stands as another exceptional son of Y3K Galaxy. His genetic blueprint mirrors Crusaders, and he reflects that in his phenotype: balanced, square, and muscled with an excellent hindquarter, broad topline, clean sheath and strong feet and legs.

NOTES: Astro is a cherry red, polled bull and a full brother to Crusader and Cosmo a trio of powerful genetics that speaks for itself. He displays excellent breed character, with a strong topline, deep flank, and good feet and legs. His overall balance and smoothness of muscle are matched by a soft skin and coat. Astro combines eye appeal with practical strength. He stands square, moves with ease, and carries muscle where it matters.

NOTES: Venturo is a striking cherry red sire prospect, Homozygous Polled (PP), sired by the renowned Ventura and backed by the proven genetics of Red Opal 477. He stands out with exceptional structural attributesmassive bone, a clean sheath, a broad, level topline, and a powerful hindquarter that commands attention. Genetically, Venturo is elite: he ranks in the top 1% for key performance traits including 200, 400, and 600-day weights, mature weight, carcase weight, retail yield, and the Central Production Indexmaking him a standout candidate for progressive breeding programs focused on performance and profitability.

NOTES: Fortuna is a powerful cherry red sire prospect, Homozygous Polled (PP), and another impressive son of Ventura. His dam, NCC Red Opal 3855, is a proven matron who has produced multiple stud sires and is a full sister to the influential Red Odyssey. Fortuna carries the genetic strength of his pedigree with distinction, ranking in the top 1% for 200, 400 and 600 day growth, as well as mature weight and carcase weight. He's a trait leader built for performance, longevity and impact.

NOTES: An outstanding Beef Sire from whatever angle you look at him. First calf from a cow that has now become our leading donor. His mum is a stunning lady with a stuning udder. Ultimate is naturally dead quiet with a pedigree that lends itself to Red & Grey breeders chasing a quality polled sire. Mark him down to take a look!!

CERES TAG

Now. You Know.

CERES TAG connects you directly to your herd via satellite, delivering real-time data to help you safeguard genetics, productivity, and profitability.

TIMELY ALERTS
Get alerted when suspicious activity occurs

DATA & INSIGHTS
Access valuable insights on your choice of software

PLUG & PLAY
Check in on your animals wherever you are, 24/7

PASTURE FEED INTAKE
Daily updates on walking, grazing, resting and ruminating

GPS LOCATION
Know where your animals are and where they've been

NO TOWERS
No additional infrastructure required.

Discover how CERES TAG transforms herd management

www.cerestag.com

NOTES: This stylish young sire is bred for performance, with Lanes Creek Daintree as his sire and one of the original Narranda stud's top-performing cows as his dam - a proven breeder who calves every year. He shows excellent length, a clean masculine head, and a soft, quiet nature. Structurally sound with strong bone and sire appeal, he's a versatile addition to any herd. Quiet, fertile, and functional - a quality bull with reliable genetics.

BANANA STATION MANLY 69 (IVF) (PS)
S. Y3K SIR GREGOR 0006 (IVF) (PP) Y3K0006M
Y3K DANCING QUEEN 7013 (PS)

JAFFRA GRANDE 4028 (PS)
D. JAFFRA TAMMY 4806 (PP) JAF4806F
JAFFRA TAMMY 4303 (PS)

NOTES: Sired by Y3K Sir Gregor 0006(PP), a bull fast becoming a sire of note with exceptional calves at Crinum, Timbrel, Y3K and Wilarandy Brahman studs to name a few. Sir Gregor is the son of the renowned Banana Station Manly and from Y3K Dancing Queen 7013. Dancing Queen 7013 is sired by Fairy Springs Jed (sire of Y3K Billionaire) from the highly successful NCC Dancing Queen family. The combination of these families consistently produce naturally quiet, heavy boned and well muscled poll cattle. This young PP sire is no exception, and as an added bonus exhibits a tremendous sirey head, shared with his father and would be expected to pass to his progeny. His dam is a foundation matron of our Timbrel polled herd, from the highly successful Jaffra bloodlines.

D. ELMO MISS CHLOE 1349/1 (PP) 3YT1349/1F
ELMO CHLOE 566/0 (PS)

NOTES: Sired by the impressive Moreno Mr Polled Kyros, the sire who has been a great success in Australia and the US . This bull exhibits a great sire's head, length of body, natural muscling and a great temperament. His dam is from the highly successful Elmo Stud with all the maternal traits of high fertility and a perfect udder, which Elmo so greatly value. Timbrel Mr Tycoon's maternal grandsire is Fairy Springs Duracell 5161, a genetic line renowned for their highly fertile female progeny. This bull presents a great opportunity to add quality muscling and fertility to your herd.

NOTES: An impact sire of the future. The first Merlin son to hit the ring. Big, long & strong with huge bone and a lovely naturally quiet temperament. Comes from our Jojo family with lovely udders and genetic consistency. Genetic consistency is 3 folded through his sire from our Red Dove & Dancing Queen/Athena families. We're sure he'll make an impact in any herd!!

NOTES: Ugene is a very soft & early maturing young polled/scurred sire that stands on exceptional bone. He is an easy fleshing young bull with a beautiful sires head, lovely hooded eye & broad muzzle. The first sire to be offered from our Rachel cow line who is proving to be an outstanding maternal line with an impressive calving interval of 338 days. A bull to certainly improve the fertility in any herd.

SAMARI PLAINS LANCE (PS)
D. PALMVALE MISS PABLO LANCE 3470 (PS) KJS3470F
PALMVALE MISS PABLO FONTENOT 2300 (ET) (H)

NOTES: Tarzan is a future sire in the making, and a standout since birth. He has a ton of grunt, breed character, bone, big testicles, depth of flank, and so much natural fleshing. All this, combined with his wonderful nature, makes him one very attractive package. His sire, Palmal Democrat, has exceeded our expectations in what he has brought to our herd. Dam is a lovely, polled Samari Plains Lance cow with an excellent udder.

..... $.....

LANES CREEK RED RADIUM 1550 (ET) (H)
D. PALMVALE TINA 3952 (PS) KJS3952F
PALMVALE TINA 3411 (PS)

NOTES: Talladega is another outstanding polled, Palmal Democrat son, with so much fleshing, bone, loose skin and sire appeal. 'A bull that is very difficult to fault', were comments from the judges at the two shows that we attended this year, where Talladega was awarded Supreme Led Exhibit of the Show at both outings. We have loved Talladega since birth for his doing ability and easy going nature. A definite stud sire prospect.

NOTES: Regal is a big upstanding red sire in the making. Regal is a super sound and free moving sire that has plenty of bone, deep flanked, lose skinned and docility that you can't fault. Regal is out of a very functional Palmvale cow family that keeps impressing. This young sire will suit all opperations.

NOTES: If female strength is your focus, be sure to look at this fella! Directly out of arguably, one of our best breeders to date!!! She has bred us high performing sires and females and I can confirm she is still producing at age 17. With multiple progenies retained in herd, this may be one of the last opportunities to purchase a direct son. Dam has had 12 calves @ 388 DCI.

NOTES: The presence and power of VENTURA is on full display; Union is a sire in the making. Magnificent skin and colour, thick through the spine, square from hip to pin. A bull with a tremendous amount of presence and natural muscling. His maternal line brings an extra level of certainty and consistency to the equation, one of the stable favourites.

NOTES: Blessed with abundant bone, volume and natural capacity, Untouchable continues the Ventura trademark. Bulls with this much substance and performance are rare. With faultless temperament, structurally sound, beautiful from hip to pin and strong in the spine, Untouchable is a true impact sire. With the added bonus of being Homozygous polled.

NOTES: The level and consistency of this joining has been incredible, with Usher's full brothers also making this year's sale team. Usher's raw data is impressive, massive weight for age which comes from the extra length of body and volume. Usher carriers a strong spine, refined front end and plenty of sire appeal. The pedigree is powerful; the phenotype proves it through performance.

NOTES: Sire appeal abounds in this darker pigment Royal flush/Cindy product. A full brother to Ukraine, U-BET has inherited Cindy's length of body and abundance of skin. Coupled with carcass and muscle expression, this combination ticks all the boxes, and the result is very eye appealing. A young bull that continues to impress, a picture of masculinity and presence.

NCC LADY ELLA 1518 (IVF) (H)

☑ 3 DAY
☑ 7 IN 1
☑ 3 GERM
☑ PESTI

☑ PARENT VERIFIED

NOTES: The Royal Flash/Ella combination continues to impress. A full brother to Ulysses, half to Untouchable and Usher delivers that rare combination of muscle and softness, square from hip to pin, long bodied and strong spined. Perfect sheath and bomb proof temperament. A very complete and correct young sire.
